person or $149 for
couples (includes one
workbook)

Facilitator:
Boyd Dressler, former
MSU associate
professor, Educational
Leadership Program

Register online:
eu.montana.edu/noncredit

This unique retirement
planning class is
designed for people
who are about five to 10 years
(or sooner) from retirement.
While retirement planning
often focuses exclusively
on finances, this hands-
on seminar guides each
participant through creating
an individualized plan that
covers lifestyle, health and
financial aspects.

The Mapping Your Retirement
seminar will help you plan a retirement
based on your values, interests, and
resources. We will address three critical
elements of a meaningful retirement:
Living Your Life, Maintaining Your
Health, and Managing Your Money.

We’ll address questions of interest to
soon-to-be retirees, such as:
• How will you use your time?
• How will you contribute?
• Will you have enough money?
• How will you maintain your health?

We will help you answer all these
questions and more, leaving you with a
complete personalized plan that will get
you where you need to go.

Mapping Your Retirement was
developed by Bemidji State University
and the Northwest Technical College.
It is offered locally by Montana State
University’s Extended University.
