

Montana State University STEAM Day Sponsorship Form

MSU STEAM Day is a one-day conference that includes hands-on workshops in the STEAM fields of science, technology, engineering, art, and math for girls in grades 6, 7, and 8. The program aims to introduce young women from across Montana to the many different education opportunities and careers available. It offers fun, hands-on workshops in astronomy, paleontology, robotics, health, engineering, veterinary medicine, chemistry, and much more!

We strive to keep the event affordable even as costs for facilities, catering, and materials continue to rise. Your support is greatly appreciated.
